1. Introduction (10.5pt, Bold, 0.5line before paragraph)

This is a guideline for the extended abstract of the 16th Asian Foundry Congress. Start with Introduction (not abstract). The authors are asked to use A4 size and to keep the margins (top: 35mm, bottom: 30mm, left: 30mm, and right: 30mm).

The authors are recommended to use "styles" defined in this word file as a function of microsoft word. You can find "styles" in this Word template for your convenience. The following video may help you to prepare your abstract.

<https://support.microsoft.com/en-gb/office/video-using-styles-in-word-9db4c0f4-2754-4294-9758-c14a0abd8cfa>

2. Format

2.1 Title, Authors, and Affiliations

Please follow the styles of this template file carefully.

2.2 Font and size (10.5pt, 0.5line before paragraph)

Please use times roman or comparable fonts. The font size in the main text should be 10.5pt. The sizes of title, author, and affiliation are indicated by red characters.

2.3 Length

Your abstract should not exceed 4 pages. We accept your abstract with 1 – 4 pages.

2.4 Acknowledgments

If the authors wish to acknowledge any assistance or financial support, the section “acknowledgments” should follow the last section immediately before the section “References”.

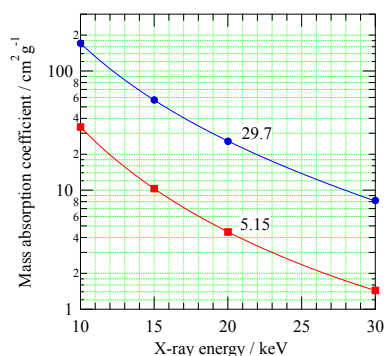

Figure 1. Mass absorption coefficient as a function of X-ray energy.

3. References

A reference provides readers with sufficient information to the cited paper/book [11]. For example, the reference consists of authors' names, journal/book titles, volumes, year, and pages.
